Drawing a Salmon: Body, Fins, and Scale Pattern

Original task 1 / independent drawing and calculation

Task 1

Draw a salmon with total length 10 cm using the lesson proportions. Mark the deepest point, body depth, and peduncle depth. Add dorsal, pelvic, anal, and adipose fins at the specified landmarks.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Drawing a Salmon: Body, Fins, and Scale Pattern

Original task 2 / independent drawing and calculation

Task 2

A student draws a salmon with total length 16 cm but places the dorsal fin base center at 10 cm from the head. Identify the error and state the correct position and base length using the lesson proportions.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Drawing a Salmon: Body, Fins, and Scale Pattern

Original task 3 / independent drawing and calculation

Task 3

Describe how to add a scale pattern to a salmon of total length 20 cm using the lesson convention. Include stroke length, row spacing, and where to leave clear areas.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Drawing a Salmon: Body, Fins, and Scale Pattern

Original task 4 / independent drawing and calculation

Task 4

Draw a salmon with total length 8 cm. After drawing, check three landmarks: deepest point, anal fin base center, and adipose fin position. State the expected values and one adjustment if a landmark is off by more than 1 cm.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
