Shrub Drawing: Branch-and-Leaf Construction

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Shrub Drawing: Branch-and-Leaf Construction

Worked example / complete source key

Draw a shrub with four main stems, two forks per stem, and five foliage clusters. Use oval leaves with a center vein. Check that two inner branches remain visible.

Answer: A completed drawing shows a ground line, a root crown point, four stems spreading outward, each with two forks at varied heights. Five oval clusters sit at branch tips and outer stems, with two inner branches visible through gaps. Leaf style is consistent oval with center vein, noted in the corner.
