Funny Face Drawing: Exaggerated Eyes and Mouths

Original worked example / unchanged complete key

Prompt: Draw a surprised funny face on a 10 cm by 7 cm oval. Use tall eyes, small pupils near the top, and an open oval mouth. Describe the placement and the final check.

Answer: Draw the oval and mark the eye line at the middle. Place two tall eye shapes on the eye line, each about 2 cm tall and 1 cm wide, with about 1 cm between them. Add small pupils near the top of each eye. Mark the nose halfway between the eye line and the chin. Draw an open oval mouth about 3 cm wide and 2 cm tall below the nose. Step back one meter: the tall eyes and open mouth should read as surprise. Check that both eyes are on the eye line and the mouth is below the nose.
