Draw Apollo: Figure, Lyre, Laurel and Drapery

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw Apollo: Figure, Lyre, Laurel and Drapery

Worked example / complete source key

A figure is 16 cm tall on paper. Using the eight-part guide, how tall is each division, and where should the waist fall?

Answer: Each division is 16 ÷ 8 = 2 cm. The waist falls near the fourth division, so about 8 cm from the top or 8 cm from the bottom.
