Cat Eyes Drawing: Slit Pupil, Almond Lids, and Fur Rim

Original task 1 / independent drawing and calculation

Task 1

Draw an almond 40 mm wide and 16 mm high. Mark the center and the four boundary points. State the distance from the center to each corner.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cat Eyes Drawing: Slit Pupil, Almond Lids, and Fur Rim

Original task 2 / independent drawing and calculation

Task 2

Inside a 16 mm high almond, draw a slit pupil 10 mm high. Leave equal iris margins above and below. State the margin.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cat Eyes Drawing: Slit Pupil, Almond Lids, and Fur Rim

Original task 3 / independent drawing and calculation

Task 3

A drawing has an almond 30 mm wide and 15 mm high. Is the width-to-height ratio greater or less than 2 to 1? Show the arithmetic.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cat Eyes Drawing: Slit Pupil, Almond Lids, and Fur Rim

Original task 4 / independent drawing and calculation

Task 4

Sketch two comparison boxes: one with only the almond and slit pupil, one with the fur rim added. Describe one difference a viewer should notice.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
