Draw a Cute Bunny: Ear, Body, and Paw Construction

Original task 1 / independent drawing and calculation

Task 1

Draw a bunny with head height 2 cm, head width 2 cm, body height 4 cm, and paw width 0.7 cm. Check the overlap and paw placement.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Cute Bunny: Ear, Body, and Paw Construction

Original task 2 / independent drawing and calculation

Task 2

Redraw the same bunny at double size. If the small bunny has head height 2 cm and paw width 0.7 cm, what are the doubled values?

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Cute Bunny: Ear, Body, and Paw Construction

Original task 3 / independent drawing and calculation

Task 3

A drawn bunny has a 3 cm head oval and a 5 cm body oval, but the body sits 1.5 cm below the head with no overlap. Describe the fix and the new overlap value.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Cute Bunny: Ear, Body, and Paw Construction

Original task 4 / independent drawing and calculation

Task 4

Draw a bunny with head height 4 cm, head width 4 cm, and paw width 1.2 cm. Check whether the paw width is within the suggested range of one third of head width.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
