Surfing Drawing: Figure, Board, Wave and Stance

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Surfing Drawing: Figure, Board, Wave and Stance

Worked example / complete source key

A figure is 12 cm tall from baseline to midline. Find board length, hip height and shoulder height using the lesson ratios.

Answer: Board length = 1.6 × 12 = 19.2 cm. Hip height = 0.4 × 12 = 4.8 cm. Shoulder height = 0.7 × 12 = 8.4 cm. Wave height = 0.5 × 19.2 = 9.6 cm.
