Surfing Drawing: Figure, Board, Wave and Stance

Original tasks 1, 2 / independent work

Task 1

A figure is 10 cm tall. Calculate board length and wave height using the lesson ratios.

Task 2

A board is 18 cm long. Where should the foot zone be and how wide is it?

Surfing Drawing: Figure, Board, Wave and Stance

Original tasks 3, 4 / independent work

Task 3

A figure is 14 cm tall. Find hip and shoulder heights above baseline.

Task 4

Your board midpoint sits 1 cm above the wave face. What adjustment keeps the ratios valid?
