Fabric Drawing: Tension Lines and Shading for Draped Cloth

Original task 1 / independent drawing and calculation

Task 1

Draw two parallel pipe folds, each 2 cm wide and 6 cm long (hypothetical). Add tension lines and shade with values 1,3,5.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fabric Drawing: Tension Lines and Shading for Draped Cloth

Original task 2 / independent drawing and calculation

Task 2

Draw a zigzag fold pattern 8 cm wide and 5 cm tall (hypothetical) with three diagonal ridges. Add tension lines and shade.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fabric Drawing: Tension Lines and Shading for Draped Cloth

Original task 3 / independent drawing and calculation

Task 3

Draw a spiral fold wrapping a cylinder 4 cm diameter and 10 cm tall (hypothetical). Show tension lines curving around.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fabric Drawing: Tension Lines and Shading for Draped Cloth

Original task 4 / independent drawing and calculation

Task 4

Combine one pipe fold and one zigzag fold in a 10 cm by 12 cm study (hypothetical). Add tension lines and shade using the strip.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
