Draw Mount Everest: Ridge Lines, Snow Bands, and Base Camp Placement

Original task 1 / independent drawing and calculation

Task 1

Draw a mountain study with a summit 9 cm above a 14 cm base line. Add one main ridge line and two snow bands. Place a base camp marker 3 cm right of center. These are hypothetical example measurements.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 2 / independent drawing and calculation

Task 2

Draw a mountain study with two ridge lines and three snow bands. Use a base line 10 cm wide and a summit 7 cm above it. Place base camp just below the base line, offset left. These are hypothetical example measurements.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 3 / independent drawing and calculation

Task 3

Draw a mountain study with one main ridge line and four snow bands. Use a base line 16 cm wide and a summit 11 cm above it. Place base camp 4 cm left of center on the base line. These are hypothetical example measurements.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 4 / independent drawing and calculation

Task 4

Draw a mountain study with two ridge lines and two snow bands. Use a base line 12 cm wide and a summit 8 cm above it. Place base camp 2 cm right of center below the base line. These are hypothetical example measurements.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.
