Cat Paws Drawing: Toe Pads, Claws, and Front vs Back Shapes

Original worked example / unchanged complete key

Prompt: Draw a front paw with a 5 cm toe arc, three toe pads spaced 1.5 cm apart, and claw wedges beyond each pad. Use a center line and label the wrist line.

Answer: A front paw silhouette with a rounded trapezoid, a center line from wrist to toe arc, three toe pads at 1.5 cm center-to-center spacing, two flanking pads, and short claw wedges starting at each toe pad edge. The wrist line is labeled, and the outline wraps around pads and claws without cutting through them.
