Straight Hair Drawing: Fall-Line Strand Construction

Original worked example / unchanged complete key

Prompt: On a head outline, draw three fall lines and one section of five tapering strands. Use a hypothetical panel 10 cm wide. Label the section arrow.

Answer: Three smooth fall lines from crown to ends, evenly spaced. Section A has five strands parallel to its arrow, each tapering from about 2 mm at the root to 1 mm at the end. No mid-section crossings. Arrow labeled A pointing down.
