Cartoon Nose Drawing: Button, Anime, and Exaggerated Shapes

Original worked example / unchanged complete key

Prompt: On a face outline 6 cm wide, draw a button nose, an anime nose, and an exaggerated nose. Label each. Use the midline and the halfway point between eyes and chin.

Answer: Button nose: a 1.5 cm wide oval centered on the midline at the halfway mark. Anime nose: a 0.5 cm horizontal line at the same height, slightly to the left. Exaggerated nose: a 4 cm wide hook shape extending to the right, with a bold outline and a small nostril curve. All three are labeled and clearly different in size and detail. Check: 1.5 cm is at or under the 2 cm cap (one-third of 6 cm); 4 cm is more than twice 1.5 cm; the anime nose uses one mark.
