Musical Note Drawing: Stem and Flag Practice

Original worked example / unchanged complete key

Prompt: Draw one eighth note using the up-stem convention. Describe each part and give a check.

Answer: Draw a light baseline. Place an oval note head with its center on the baseline. Attach a straight vertical stem to the right edge of the head, about three head-heights long. From the stem tip, draw one flag curving down toward the head without touching it. Check: head is oval, stem is straight and on the right, one flag, no overlap.
