Strawberry Cake Drawing: Tier, Cream Layers, and Berry Topping

Original worked example / unchanged complete key

Prompt: A plate ellipse is 12 cm wide. The cake base is two-thirds of the plate width. The cake height is half the base width. Find the base width and height.

Answer: Base width = 8 cm; height = 4 cm.

Reason: Two-thirds of 12 cm is 8 cm. Half of 8 cm is 4 cm. These are hypothetical values for practice.
