Worker Drawing: Pose, Tool, and Clothing Construction

Original tasks 1, 2 / independent work

Task 1

Draw a worker standing with weight on the right foot, holding a hand tool with a straight handle at chest height. The tool points left. Mark the hip midline and show one cuff.

Task 2

Draw a worker kneeling on one knee with a tool resting on the ground beside the support knee. Show a knee patch and one compression fold at the bent hip.

Worker Drawing: Pose, Tool, and Clothing Construction

Original tasks 3, 4 / independent work

Task 3

Draw a worker reaching upward with a tool, weight on both feet, and a work layer with a clear front opening. Show tension lines from the raised shoulder toward the neck.

Task 4

Draw a worker leaning slightly forward with a tool pointing down toward a task area. Show a protective apron and a fold at the bent elbow. Label one hypothetical length on the handle.
