Animal Eye Drawing: Pupil Shapes and Highlight Placement

Original task 1 / independent drawing and calculation

Task 1

Draw an eye oval 5 cm wide and 3 cm tall. Add a horizontal slit pupil 2.5 cm wide and 0.8 cm tall, centered. Draw an iris ring 0.4 cm outside the pupil. Place a highlight dot 0.2 cm across at the upper right of the iris ring. Label the pupil shape and highlight position.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Animal Eye Drawing: Pupil Shapes and Highlight Placement

Original task 2 / independent drawing and calculation

Task 2

Draw the same eye oval 5 cm wide and 3 cm tall three times. Use a round pupil 1.2 cm in diameter in all three. Place the highlight dot 0.2 cm across at upper left in the first, lower left in the second, and lower right in the third. Label each highlight position.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Animal Eye Drawing: Pupil Shapes and Highlight Placement

Original task 3 / independent drawing and calculation

Task 3

Draw an eye oval 6 cm wide and 4 cm tall with a vertical slit pupil 1 cm wide and 3 cm tall, centered. Draw the iris ring 0.5 cm outside the pupil. Place a highlight dot 0.3 cm across at the lower left of the iris ring. Then draw a second eye oval the same size with a round pupil 1.5 cm in diameter and the same highlight position. Label both.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Animal Eye Drawing: Pupil Shapes and Highlight Placement

Original task 4 / independent drawing and calculation

Task 4

Draw an eye oval 4 cm wide and 3 cm tall. Choose either a vertical slit pupil 0.8 cm wide and 2 cm tall or a horizontal slit pupil 2 cm wide and 0.8 cm tall. Draw the iris ring 0.3 cm outside the pupil. Place a highlight dot 0.2 cm across at upper left. State which pupil shape you chose and why the highlight position is consistent with light from the upper left.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
