Animal Eye Drawing: Pupil Shapes and Highlight Placement

Original worked example / unchanged complete key

Prompt: Draw a cat-like eye with a vertical slit pupil and a highlight at the upper left of the iris ring. Use an eye oval 6 cm wide and 4 cm tall, a pupil 1 cm wide and 3 cm tall, an iris ring gap of 0.5 cm, and a highlight dot 0.3 cm across.

Answer: Eye oval: 6 cm by 4 cm, centered on the page. Pupil: vertical slit 1 cm wide and 3 cm tall, centered in the oval. Iris ring: drawn 0.5 cm outside the pupil outline, gap even at top, bottom, left, and right. Highlight: a filled dot 0.3 cm across placed on the iris ring at the upper-left position, about 0.5 cm from the pupil outline. Label: vertical slit, upper-left highlight.
