Draw Six Emotions by Changing Brows, Eyes, and Mouth

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw Six Emotions by Changing Brows, Eyes, and Mouth

Worked example / complete source key

Using the fixed outline, draw a surprised face. State the brow angle, eye shape, and mouth curve you will use, then describe the result.

Answer: Brows raised overall above the neutral brow line; eyes open round with the pupil centered; mouth a small open oval. The face reads as surprised because all three features move away from neutral in the same direction: up and open.
