Realistic Flower Drawing: Petal Overlap, Proportion, and Tonal Shading

Original tasks 1, 2 / independent work

Task 1

Plan a flower head with a diameter of 10 units and a stem length of 15 units. State the head-to-stem ratio in simplest form and describe where you would place the head center relative to the frame midline.

Task 2

A flower has 7 outer petals and 5 middle petals. You draw the middle petals first. Explain why this order causes overlap problems and give a corrected order.

Realistic Flower Drawing: Petal Overlap, Proportion, and Tonal Shading

Original tasks 3, 4 / independent work

Task 3

Your four-patch value guide has light, medium-light, medium-dark, and dark. You shade the back petals medium-dark and the front petals light. Explain the problem and give a corrected assignment.

Task 4

You planned a head diameter of 9 units but your drawn head measures 12 units on the page. State the difference and one adjustment you would make before shading.
