Swim Drawing Easy: Three Stroke Poses and Poolside Context

Original tasks 1, 2 / independent work

Task 1

A body line is 16 cm long. What head circle diameter matches the one-eighth ratio? Show the arithmetic.

Task 2

A deck line and a lane line are drawn 3 cm apart at the left end and 3.4 cm apart at the right end. Is the lane line parallel within a 2 mm tolerance? Explain.

Swim Drawing Easy: Three Stroke Poses and Poolside Context

Original tasks 3, 4 / independent work

Task 3

A swimmer has one arm reaching forward past the head and the other pulling back near the hip. The face turns slightly to one side. Which stroke is this, and what should you check next?

Task 4

A sign on the poolside uses two different letter styles and the x-height is measured from baseline to midline in one style but not the other. What should you fix, and how will you check it?
