Draw a Tiger Eye: Slit Pupil, Amber Bands, and Fur Rim

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw a Tiger Eye: Slit Pupil, Amber Bands, and Fur Rim

Worked example / complete source key

Draw a tiger eye on a 12 cm by 7 cm eye opening. Place a vertical slit pupil 4 cm tall and 0.7 cm wide, add three amber bands, and a 1.2 cm fur rim.

Answer: The eye opening is 12 cm wide and 7 cm tall. The pupil is centered on the vertical midline, 4 cm tall and 0.7 cm wide, tapering at both ends and not touching the iris edge. Three concentric bands surround it: pale amber outer, mid amber middle, deep amber inner. The fur rim is 1.2 cm wide outside the eye opening, with short outward strokes. The pupil is darkened last.
