Draw a Snarling Dog with Shadow and Expression

Original worked example / unchanged complete key

Prompt: Draw a snarling dog head on a 10 cm by 8 cm oval. Place the nose on the vertical midline, 2 cm above the lowest point of the oval, measured vertically. Add two curved snarl-lines, three teeth per side, angled brows, and a shadow crescent under each brow. Use light from above.

Answer: A completed head with a symmetrical oval, nose on the vertical midline, two curved snarl-lines from nose bridge to mouth corners, three triangular teeth per side about 1 cm tall, angled brows, and a 2 cm shadow crescent under each brow. A shadow under the lower jaw completes the light direction.
