Draw and Compare Three Arrow Variants: Shaft, Head and Fletching

Original worked example / unchanged complete key

Prompt: Draw one target arrow using the lesson convention: shaft 12 cm, head a narrow triangle 2 cm long and 1 cm wide, three fins 3 cm long and 1 cm tall. Label shaft, head and fletching, and write a construction note.

Answer: A horizontal shaft line 12 cm long with a small V-notch at the left end. At the right end, a narrow triangle 2 cm long and 1 cm wide, point facing right. In the left 3 cm zone, one fin above the shaft and one below, each 3 cm long and 1 cm tall, with a short line behind the shaft suggesting the third fin. Labels: shaft above the middle, head to the right, fletching to the left. Construction note: all lengths in centimetres; shaft 12, head 2 by 1, fins 3 by 1, fin count 3.
