Facial Features Drawing: Eye, Nose, Ear and Mouth Construction

Original task 1 / independent drawing and calculation

Task 1

In a hypothetical 8 cm by 8 cm frame, baseline at bottom, midline 4 cm above baseline. Mark inner corner at 2 cm from left, outer corner at 6 cm from left, iris center at 4 cm from left on midline. Draw upper lid arc peaking 1 cm above midline, lower lid arc 1 cm above baseline, iris circle crossing midline, centered pupil. Label landmarks and give one check.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Facial Features Drawing: Eye, Nose, Ear and Mouth Construction

Original task 2 / independent drawing and calculation

Task 2

In a hypothetical 6 cm by 8 cm frame, baseline at bottom, midline 4 cm above baseline. Mark nose bridge top at 3 cm from left, 6 cm above baseline; bridge bottom at 3 cm from left, 3 cm above baseline; tip at 3 cm from left on midline. Draw two nostril arcs 1 cm below tip and 1 cm above baseline. Label landmarks and check nostril distances.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Facial Features Drawing: Eye, Nose, Ear and Mouth Construction

Original task 3 / independent drawing and calculation

Task 3

In a hypothetical 6 cm by 8 cm frame, baseline at bottom, midline 4 cm above baseline. Mark ear top curve at 3 cm from left, 6 cm above baseline; lobe at 3 cm from left, 1 cm above baseline; inner curve start at 2 cm from left, 4 cm above baseline; inner curve end at 4 cm from left, 3 cm above baseline. Draw outer helix curve, inner curve and lobe. Label landmarks and check lobe position.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Facial Features Drawing: Eye, Nose, Ear and Mouth Construction

Original task 4 / independent drawing and calculation

Task 4

In a hypothetical 8 cm by 6 cm frame, baseline at bottom, midline 3 cm above baseline. Mark mouth center at 4 cm from left on midline; left corner at 1 cm from left on baseline; right corner at 7 cm from left on baseline. Draw upper lip curve dipping 0.5 cm below midline at center; lower lip curve 1 cm below upper curve at center, above baseline. Label landmarks and check center-to-corner distances.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
