Pencil Shading for Simple Food Forms: Pasta, Fruit, and Bread

Original task 1 / independent drawing and calculation

Task 1

Draw a pasta bowl with a rim ellipse and a pasta mound. Use upper right light. Paper is 15 cm by 20 cm (hypothetical example).

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Pencil Shading for Simple Food Forms: Pasta, Fruit, and Bread

Original task 2 / independent drawing and calculation

Task 2

Draw a pear with a stem and leaf. Use upper left light. Paper is 15 cm by 20 cm (hypothetical example).

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Pencil Shading for Simple Food Forms: Pasta, Fruit, and Bread

Original task 3 / independent drawing and calculation

Task 3

Draw a bread loaf with a domed top and two score lines. Use upper left light. Paper is 15 cm by 20 cm (hypothetical example).

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Pencil Shading for Simple Food Forms: Pasta, Fruit, and Bread

Original task 4 / independent drawing and calculation

Task 4

Draw one food form from observation (fruit, bread, or pasta) on a 15 cm by 20 cm paper (hypothetical example). Use a single light direction and label your x-height convention on scrap paper.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
