# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Original task 1 / independent drawing and calculation

## Task 1

Draw a short crop on a 6 cm wide head outline. Use a hypothetical 0.8 cm crown gap and draw four forward strand arrows. Describe where the arrows start and end.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Original task 2 / independent drawing and calculation

## Task 2

Draw a swept-back style on the same 6 cm wide outline. Use a hypothetical 1.6 cm front gap and five backward curved arrows. State one visible difference from the short crop.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Original task 3 / independent drawing and calculation

## Task 3

On a blank head outline, invent a male hairstyle with a short side crop and a swept front. Draw at least six arrows total and write a one-sentence convention note.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Original task 4 / independent drawing and calculation

## Task 4

Compare two sketches: one with a 1 cm gap and forward arrows, one with a 2 cm gap and backward arrows. Write two checkable differences and one reason the comparison is valid.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

## Full drawing sheet / reusable blank workspace

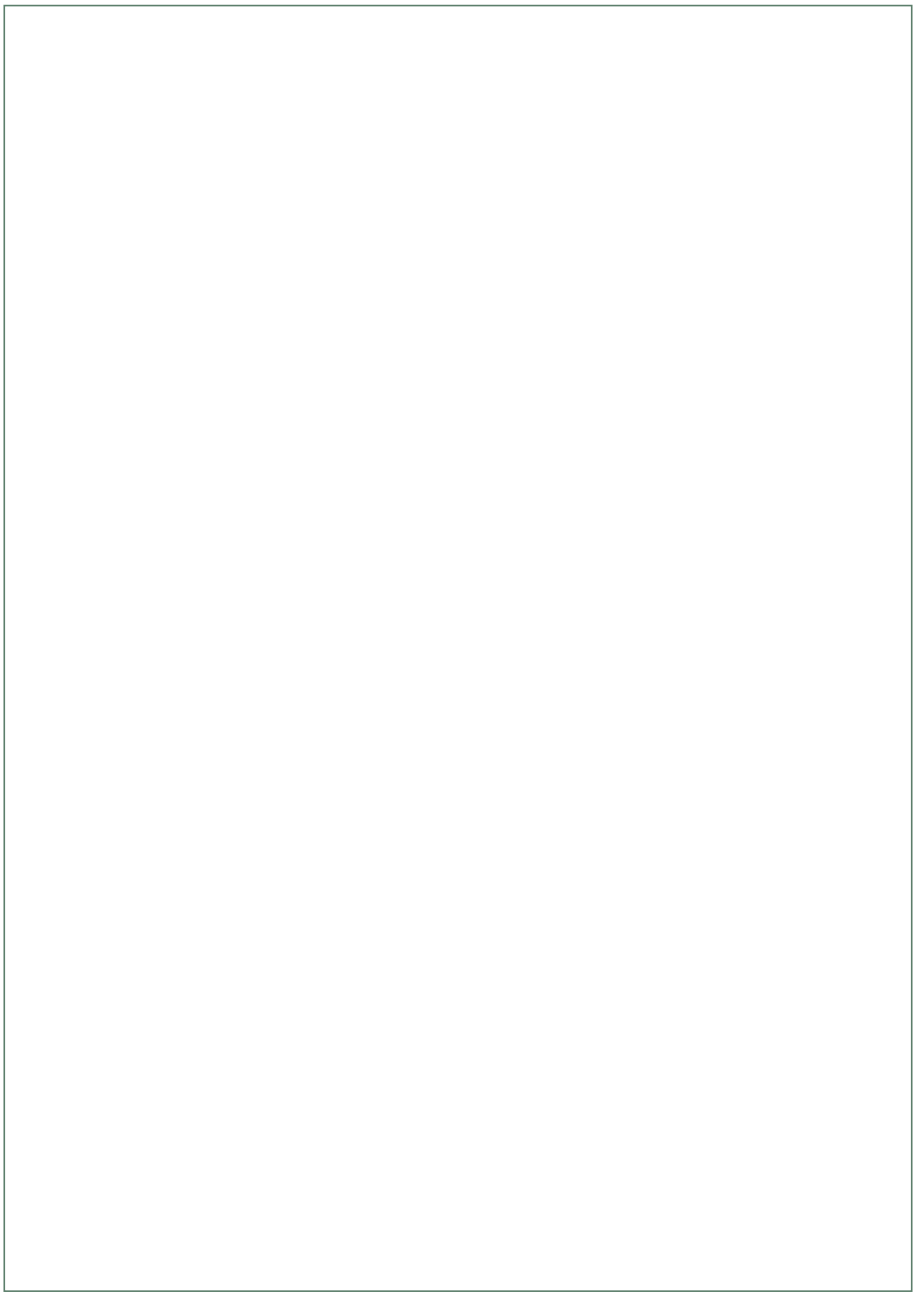

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.

# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Task 1 / practice

Hair-profile flow / hypothetical gap and head lengths print 1:2 / face points left

Independent drawing area / supply your construction and measurements.

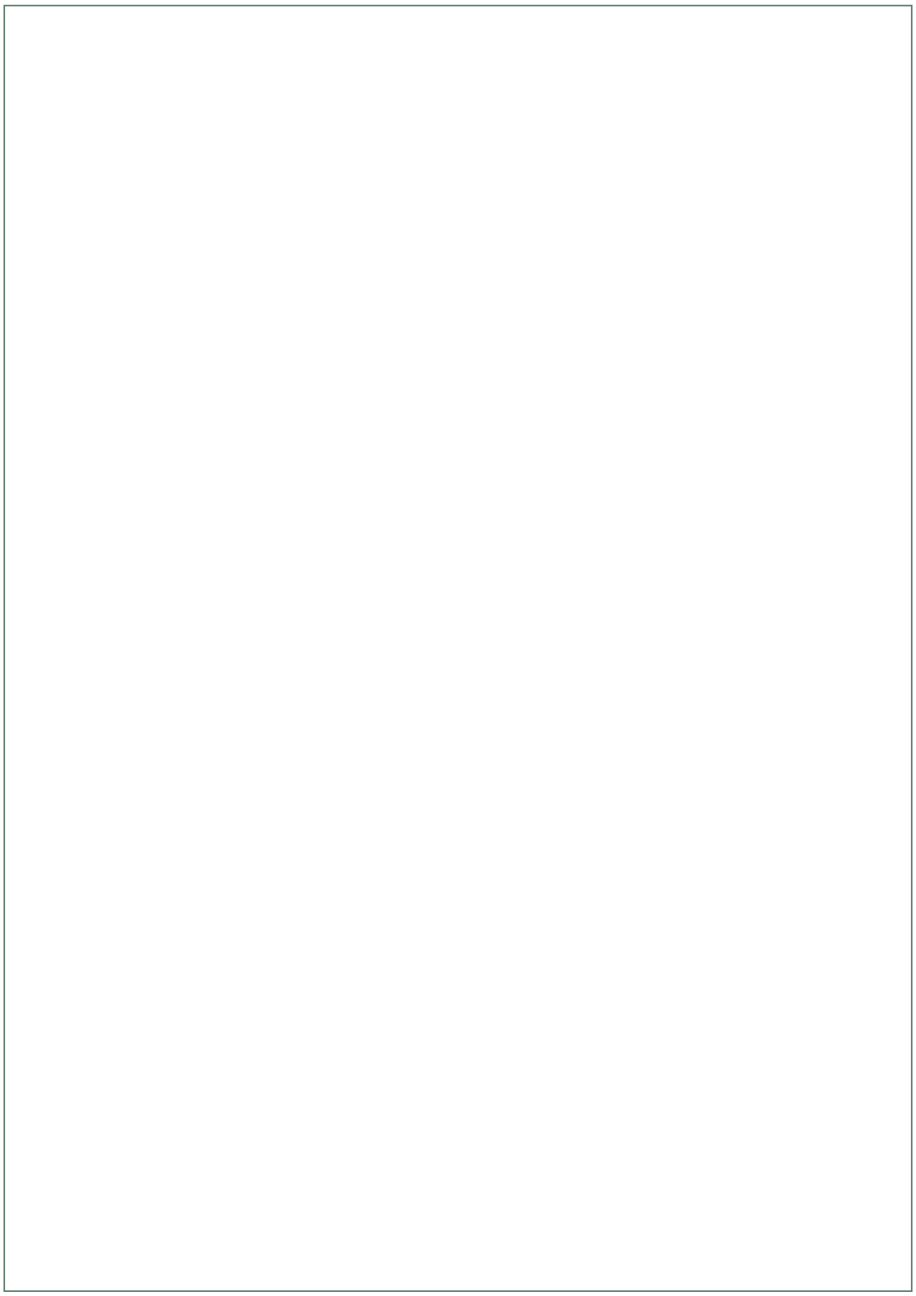

# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Task 2 / practice

Hair-profile flow / hypothetical gap and head lengths print 1:2 / face points left

Independent drawing area / supply your construction and measurements.

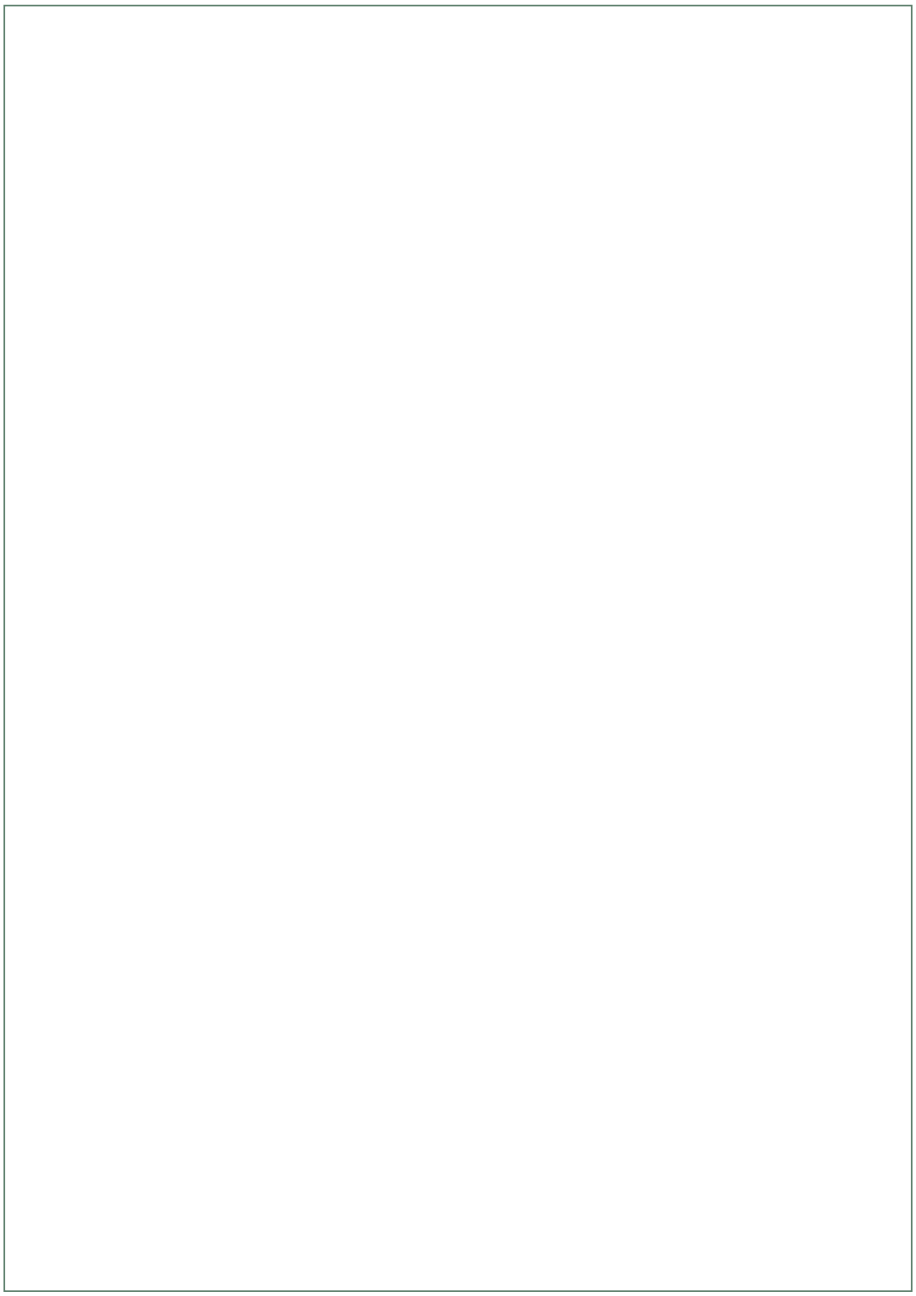

# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Task 3 / practice

Hair-profile flow / hypothetical gap and head lengths print 1:2 / face points left

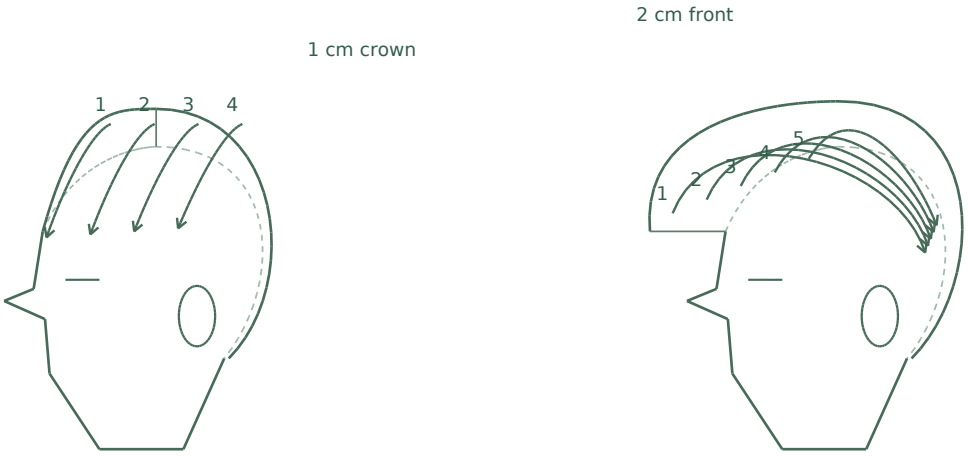

Independent drawing area / supply your construction and measurements.

# Draw Male Hair: Compare Short Crop and Swept-Back Styles

Task 4 / practice

Hair-profile flow / hypothetical gap and head lengths print 1:2 / face points left

Short crop: 1 cm crown gap and forward arrows. Swept front: 2 cm front gap and backward arrows. Gap means local scalp-to-hair surface distance, not an anatomical limit.
