Draw South Korea's Outline: Peninsula and Island Details

Original tasks 1, 2 / independent work

Task 1

Using a 9 cm by 12 cm rectangle divided into 3 by 4 equal cells, describe the placement of the northern start and southern tip.

Task 2

A sketch shows a smooth west coast and a jagged east coast. State one correction and where to apply it.

Draw South Korea's Outline: Peninsula and Island Details

Original tasks 3, 4 / independent work

Task 3

Place Jeju, Ulleungdo, and Dokdo on a grid with the southern tip at bottom center. Give relative positions and sizes.

Task 4

A peninsula outline measures 8 cm wide and 15 cm long. Is the length-to-width ratio near the target of 2:1? Show the arithmetic.
