Draw a Boxer Dog: Body Build and Muzzle Construction

Original tasks 1, 2 / independent work

Task 1

A student draws a body box 9 cm wide and 10 cm tall using a 4 cm x-height. Is the body too narrow, too wide, or acceptable? Give a corrected width.

Task 2

Using a 5 cm x-height, a muzzle rectangle is drawn 4 cm wide and 3 cm deep. State whether the depth is acceptable and give a corrected depth.

Draw a Boxer Dog: Body Build and Muzzle Construction

Original tasks 3, 4 / independent work

Task 3

A head circle is 7.5 cm wide with a 5 cm x-height. The chest depth is 7.5 cm. Are the head width and chest depth consistent with the lesson's proportions? Explain.

Task 4

A drawing has a muzzle 2 cm deep with a 4 cm x-height, but the nose is placed 1 cm back from the muzzle front. Describe the correction and the check.
