Draw the Letter E: Block and Serif Stroke Construction

Original worked example / unchanged complete key

Prompt: Construct a block E with height 40 mm, width 20 mm, uniform stroke width 4 mm, and equal arm lengths. Describe the stroke order and check the middle arm position.

Answer: Draw baseline and midline 40 mm apart. Mark left guide and right guide 20 mm to the right. Draw vertical stem from midline to baseline along left guide, 4 mm wide. Draw top arm at midline from stem to right guide, 4 mm thick. Draw middle arm at 20 mm above baseline from stem to right guide, 4 mm thick. Draw bottom arm at baseline from stem to right guide, 4 mm thick. Check: middle arm is at half height (20 mm), arms are parallel, stroke width is 4 mm throughout. The letter is clearly an E with consistent proportions.
