Clergy Figure Drawing: Vestment Layers and Posture

Original worked example / unchanged complete key

Prompt: Draw a standing clergy figure with arms folded, using a 6 cm hypothetical x-height on a 20 cm wide paper. Show alb, stole, and outer robe.

Answer: Center line and baseline drawn; hip/waist midline marked, with shoulders 6 cm above it (x-height = 6 cm). Head oval above the shoulders with slight tilt. Shoulders slope gently; weight-bearing leg line on the left between baseline and midline, ankles at the baseline. Alb drawn from shoulders down to ankles at the baseline, stole bands close to torso, outer robe as a broad bell shape over torso. Outermost contour strengthened; guide labels erased. Rubric check: posture clear, layer order correct, silhouette balanced, line weights consistent.
