Chosen sample: Calm: flat brows / half-lidded / flat mouth

Chosen oval 85 x 110 mm. Baseline to midline: 30.0 mm. The face geometry and feature sizes are lesson examples, not anatomical measurements.

Your rubric/check: ____ Revision: ____

Viewer 1 guess: _____ Viewer 2 guess: _____

These fields are deliberately empty. No printed drawing guarantees a viewer response; make and record the observations required by the original question.

Feelings Drawing: Labeled Emotion Faces with Feature Variations

Original worked example / unchanged complete key

Prompt: Draw a face for 'calm' using the convention. Choose brow: flat; eye: half-lidded; mouth: flat. Place features using x-height 3 cm (hypothetical). Label the combination and state one check.

Answer: Draw an oval with baseline and midline. Mark x-height 3 cm. Place flat brows about 0.5 cm above midline, half-lidded eyes on midline, and a flat mouth about 1 cm below midline. Label 'Calm: brow flat, eye half-lidded, mouth flat'. Check: cover the label, ask two viewers to guess; if both say calm or neutral, the variation is clear. If not, raise the outer brow slightly and retest.
