Blank Face Drawing: Proportion Guides for Feature Placement

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Blank Face Drawing: Proportion Guides for Feature Placement

Worked example / complete source key

An oval is 120 mm tall. Using the lesson convention, find the eye line, nose line, and mouth line distances from the crown.

Answer: Eye line: 60 mm below crown. Lower half is 60 mm; one-third is 20 mm, so nose line is 80 mm below crown and mouth line is 100 mm below crown, leaving 20 mm to the chin.
