Drawing a Grandmother Portrait: Face, Hair, and Posture

Original tasks 1, 2 / independent work

Task 1

A head oval is 10 cm tall from top to chin. Using the lesson convention, state the eye line, nose base, and mouth line positions measured from the top.

Task 2

A described reference has a shoulder line that slopes down 2 cm over a 12 cm width. The eye line tilts 1 cm over the same 12 cm width. Which line is more tilted, and by how much per 12 cm?

Drawing a Grandmother Portrait: Face, Hair, and Posture

Original tasks 3, 4 / independent work

Task 3

A hair silhouette is drawn as a closed shape around a head oval. The silhouette touches the top of the skull and extends 3 cm below the chin at the sides. The eye line is 6 cm from the top on a 12 cm head. Does the hair cover the eye line at the sides if the silhouette side edge is 4 cm from the face oval? Explain using the given numbers.

Task 4

A neck is drawn 3 cm wide under a head that is 9 cm wide. Using the lesson check that neck width is roughly one third of head width, is the neck within the suggested range? Show the arithmetic.
