Draw Gremlin Characters with Feature Variations

Original task 1 / independent drawing and calculation

Task 1

Draw a gremlin with a wedge head, pointed ears, and a lanky body. Head is two x-heights tall, body is five x-heights tall. State the total height.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Gremlin Characters with Feature Variations

Original task 2 / independent drawing and calculation

Task 2

Draw a gremlin with a pear head, drooping ears, and a hunched body. Head is two and a half x-heights tall, body is three and a half x-heights tall. State the total height.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Gremlin Characters with Feature Variations

Original task 3 / independent drawing and calculation

Task 3

Draw two gremlins: first with round head, frilled ears, stocky body; second with wedge head, pointed ears, lanky body. List two features that differ.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Gremlin Characters with Feature Variations

Original task 4 / independent drawing and calculation

Task 4

A drawing has a head three x-heights tall and a body four x-heights tall, but the ears are two x-heights long. Is the total height seven or nine x-heights? Explain.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
