Draw Africa's Outline: Coastline Landmarks Step by Step

Original tasks 1, 2 / independent work

Task 1

Using a 10 by 12 grid, place the Horn anchor at column 9, row 8 and the Cape anchor at column 4, row 1. Describe the clockwise curve between them and state one check you would use.

Task 2

A sketch measures 8 squares tall and 8 squares wide. Compute the height-to-width ratio and decide whether it passes the convention.

Draw Africa's Outline: Coastline Landmarks Step by Step

Original tasks 3, 4 / independent work

Task 3

The Gulf of Guinea anchor is at column 3, row 5. Your western coastline runs straight from column 1, row 7 to column 4, row 1 without curving inward. What mistake does this show, and how do you fix it?

Task 4

You label the Nile Delta inside the outline at column 6, row 10. State the labeling mistake and give a corrected placement rule.
