Draw a Dragon Eye: Slit Pupil, Iris, Lid Folds, and Scaled Brow

Original tasks 1, 2 / independent work

Task 1

An eye is 50 mm wide and 25 mm high. Using the lesson convention, what are the pupil height and pupil width?

Task 2

An eye is 80 mm wide. You mark the left corner 40 mm from the center. Where should the right corner be, and what is the total eye width?

Draw a Dragon Eye: Slit Pupil, Iris, Lid Folds, and Scaled Brow

Original tasks 3, 4 / independent work

Task 3

You plan three lid folds spaced 5 mm apart above the upper lid. What is the distance from the first fold to the third fold?

Task 4

A brow row has six scale rings. Each ring overlaps the next by 2 mm, and each ring is 8 mm wide. What is the total brow row length if the rings are placed in a straight line?
