Draw Two Hands Forming a Heart: Finger-Curl Steps

Original task 1 / independent drawing and calculation

Task 1

Using a hand span of 20 cm as a hypothetical example, calculate the half-span and state where you place each palm edge relative to the center line.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Two Hands Forming a Heart: Finger-Curl Steps

Original task 2 / independent drawing and calculation

Task 2

You shorten each successive finger by 1.5 cm as a hypothetical example. If the index finger is 7 cm long, what are the lengths of the middle, ring, and little fingers?

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Two Hands Forming a Heart: Finger-Curl Steps

Original task 3 / independent drawing and calculation

Task 3

A drawing has a left lobe width of 6 cm and a right lobe width of 6.4 cm. Using a tolerance of 0.5 cm as a hypothetical example, is the drawing within tolerance? Show the arithmetic.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Two Hands Forming a Heart: Finger-Curl Steps

Original task 4 / independent drawing and calculation

Task 4

Describe how to redraw the paired-hand heart from memory on a blank sheet, including the order of the finger-curl steps and one measurement you will use to compare it to the first drawing.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
