Draw a Cacao Tree: Trunk Pods and Broad Leaves

Original tasks 1, 2 / independent work

Task 1

Draw a cacao tree with a trunk, two main branches, and two pods attached to the trunk. Use broad leaves at branch ends. Keep the canopy open.

Task 2

Draw three pods at different angles on a single trunk section: one downward, one outward, one horizontal. Add ridge lines. No leaves required.

Draw a Cacao Tree: Trunk Pods and Broad Leaves

Original tasks 3, 4 / independent work

Task 3

Draw a cacao tree with four main branches and five pods. Place at least two pods on branches and three on the trunk. Add leaf clusters at branch ends.

Task 4

Draw a cacao tree using only outlines and no shading. Include a trunk, three branches, four pods, and broad leaves. Label nothing. Use light construction lines that are erased or faint.
