Draw a Kneeling Person: Knee Contact, Torso Alignment, and Weight

Original task 1 / independent drawing and calculation

Task 1

Draw a kneeling figure with both knees on the ground and both hands resting on the thighs. Mark the ground line and torso vertical.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Kneeling Person: Knee Contact, Torso Alignment, and Weight

Original task 2 / independent drawing and calculation

Task 2

Draw a kneeling figure with the left knee on the ground, the right foot forward, and the right hand raised. Use 3 head-height units between knee and foot contacts.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Kneeling Person: Knee Contact, Torso Alignment, and Weight

Original task 3 / independent drawing and calculation

Task 3

Draw a kneeling figure with the right knee on the ground and the left knee raised, left foot flat. Add a torso lean forward justified by a raised left hand.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Kneeling Person: Knee Contact, Torso Alignment, and Weight

Original task 4 / independent drawing and calculation

Task 4

Draw a kneeling figure with the left knee on the ground, right foot forward, and both hands on the ground. Mark four contact points.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
