Realistic Skull Drawing: Sutures, Jaw Depth, and Shading

Original task 1 / independent drawing and calculation

Task 1

Using a 10 mm x-height, draw a skull outline with cranial width 14 mm and jaw depth 12 mm. Add one coronal suture of 6 arcs, each 1.5 mm.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

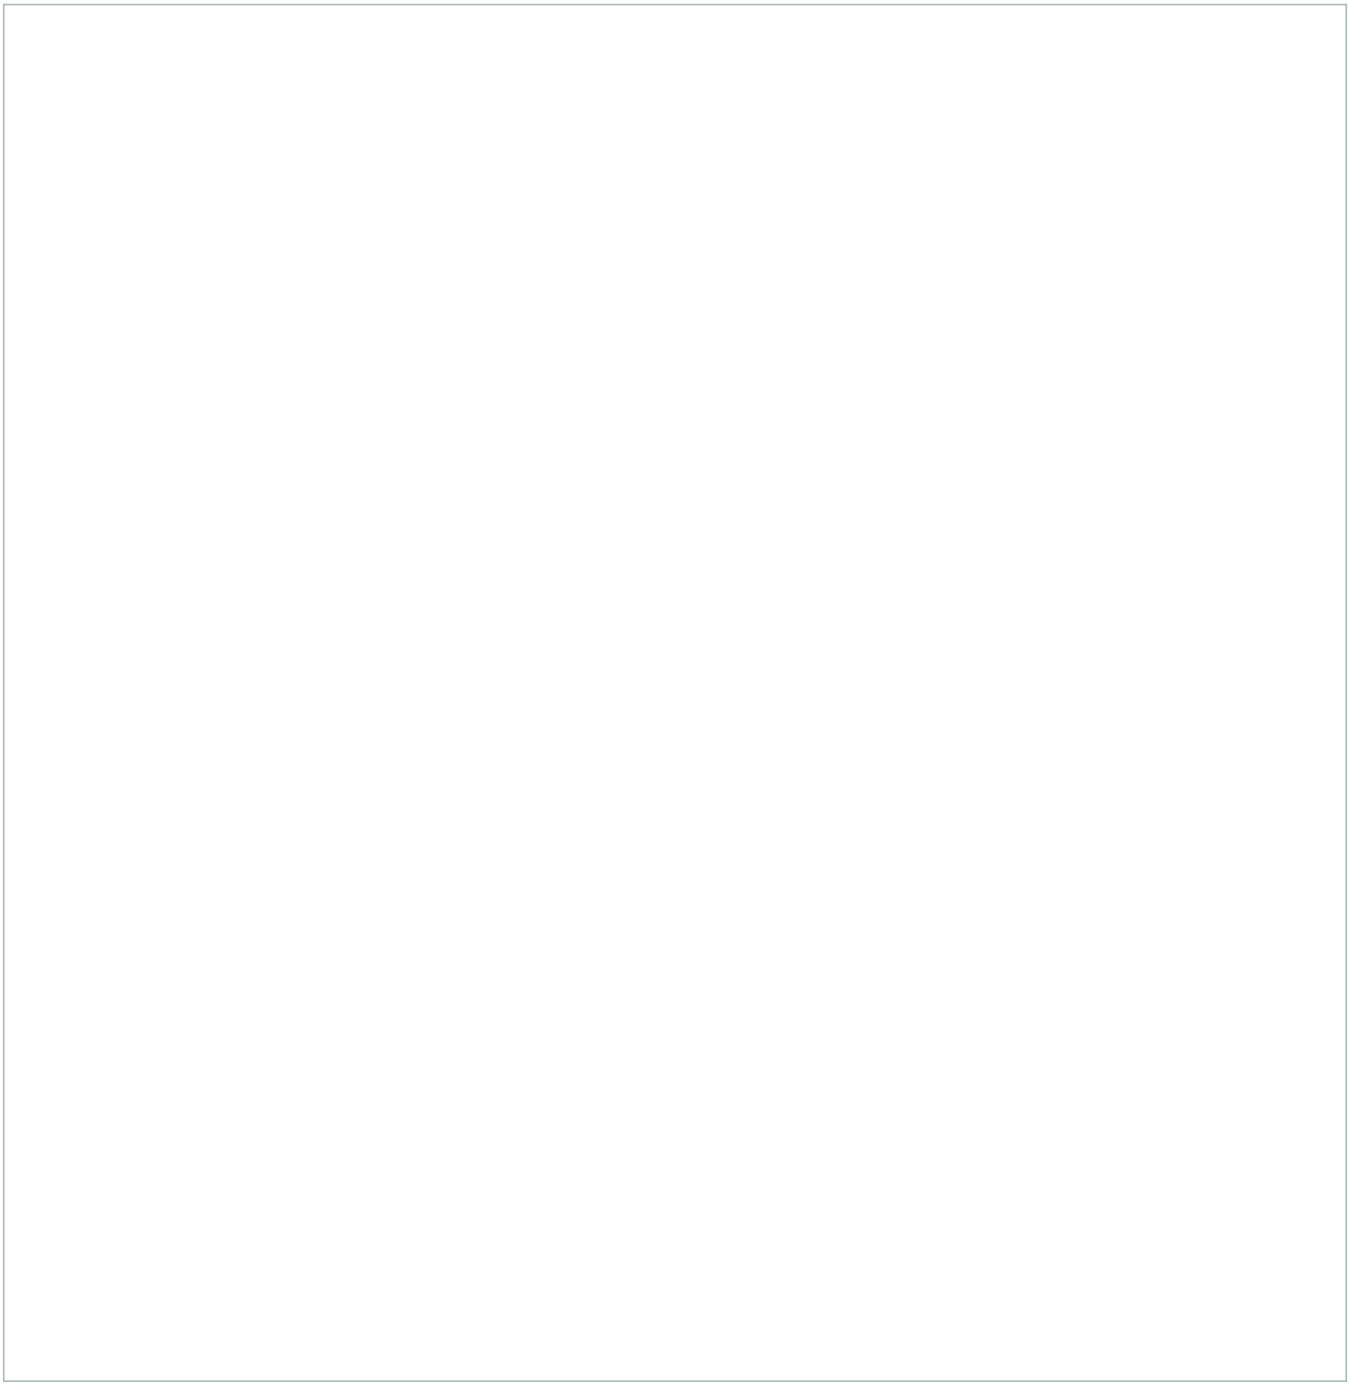

Realistic Skull Drawing: Sutures, Jaw Depth, and Shading

Original task 2 / independent drawing and calculation

Task 2

Draw a three-quarter skull with near socket 4 mm wide and far socket 3 mm wide shifted 3 mm inward. Add a sagittal suture with 5 arcs of 2 mm.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Realistic Skull Drawing: Sutures, Jaw Depth, and Shading

Original task 3 / independent drawing and calculation

Task 3

Shade a skull cranium in three bands: light top, medium middle, dark lower temples. Use curved strokes and darken under the jaw by 2 mm.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Realistic Skull Drawing: Sutures, Jaw Depth, and Shading

Original task 4 / independent drawing and calculation

Task 4

Draw a lambdoid suture with 5 arcs, each between 1 and 2 mm, curving down the back. Confirm no arc crosses an eye socket.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
