Oleander Drawing: Clustered Flowers and Narrow Leaves

Original task 1 / independent drawing and calculation

Task 1

Draw one flower cluster with five flowers. Use a base unit of 1 cm as a hypothetical example. Place centers about 1 cm apart inside an oval 5 cm wide and 3 cm tall. Draw five petals around each center.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Oleander Drawing: Clustered Flowers and Narrow Leaves

Original task 2 / independent drawing and calculation

Task 2

Draw a stem 10 cm long with four leaf pairs. Use attachment points 2 cm apart starting 2 cm from the bottom. Each leaf is 4 cm long and 0.8 cm wide.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Oleander Drawing: Clustered Flowers and Narrow Leaves

Original task 3 / independent drawing and calculation

Task 3

A drawing has a cluster 7 cm wide on a stem 15 cm long. Using the one-third check, is the cluster too wide? Show the arithmetic.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Oleander Drawing: Clustered Flowers and Narrow Leaves

Original task 4 / independent drawing and calculation

Task 4

Draw a complete oleander with two stems, one cluster per stem, and three leaf pairs per stem. Use a base unit of 1 cm as a hypothetical example. Keep clusters 4 cm wide and stems 12 cm long. Check the one-third rule for each stem.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
