Cheekbone Contour and Highlight Shading: A Plane-Based Drawing Lesson

Original tasks 1, 2 / independent work

Task 1

A face outline is 100 mm wide. You plan a 15 mm highlight band and a 20 mm shadow band. Do the bands fit, and what is the remaining width?

Task 2

On a 70 mm face, one side has a 10 mm shadow band and the other has a 14 mm shadow band. What is the difference, and does the total shadow plus a 12 mm highlight fit?

Cheekbone Contour and Highlight Shading: A Plane-Based Drawing Lesson

Original tasks 3, 4 / independent work

Task 3

Describe where the highlight and shadow zones go for a cheekbone contour drawn from beside the nose to the outer eye corner, and state one valid alternative to a continuous contour line.

Task 4

A face is 85 mm wide. You want a highlight band of 11 mm and a shadow band of 19 mm. Show the arithmetic and state whether the bands fit.
