Hairstyle Ideas Drawing: Compare Partings, Lengths and Texture Strokes

Original worked example / unchanged complete key

Prompt: On one head outline, place a side parting, mark a medium length guide 8 cm below the crown (hypothetical example), and sketch a loose variation using short curved strokes for soft waves. State the convention.

Answer: The parting runs from the hairline to the crown on the left side. Two broad fall shapes sweep right and end at the 8 cm guide. Short curved strokes fill the fall shapes. Key: short curved stroke equals soft wave. The head outline is unchanged from the template.
