Draw a Peace Dove with Olive Branch: Step-by-Step Symbol Drawing

Original worked example / unchanged complete key

Prompt: Draw a peace dove facing right with a spread wing and a three-pair olive branch. Use a body oval about 4 cm wide and 2 cm tall on your paper. Describe the construction order and one check.

Answer: Draw the 4 cm by 2 cm body oval tilted slightly up to the right. Add a head circle about 1.5 cm wide above and right of the body, then connect with two curved neck lines. Add a small beak pointing right and an eye dot. Draw a fan wing from the middle of the body extending upward about 4 cm, with five rounded feather lines. Add two curved tail feathers at the left. Draw a thin stem from the beak curving right and down, then add three pairs of pointed oval leaves alternating along it. Check that the wing does not cover the eye and that the stem starts at the beak tip.
