Drawing a Buffalo Head: Horn Curve, Muzzle Shape and Eye Placement

Original tasks 1, 2 / independent work

Task 1

On a grid, a skull oval is 8 squares wide. You choose a horn span of 1.5 times the skull width. How many squares wide is the horn span?

Task 2

A muzzle is drawn 4 squares wide under a skull 8 squares wide. Is the muzzle about half the skull width?

Drawing a Buffalo Head: Horn Curve, Muzzle Shape and Eye Placement

Original tasks 3, 4 / independent work

Task 3

An eye is placed 1 square from the outer edge of a skull that is 6 squares wide. Is that about one-third of the way from the outer edge to the midline?

Task 4

In a three-quarter view, the far horn curve is drawn the same length as the near horn. What should you change?
