Pencil Flower Drawing: Line Weight, Graphite Shading, and Petal Layering

Original task 1 / independent drawing and calculation

Task 1

Draw a line-weight strip with five strokes labeled 1 to 5. Then draw one petal edge at weight 3 and one stem at weight 5.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 3 / independent drawing and calculation

Task 3

Draw a flower with three back petals and three front petals. Use weight 1 for construction, weight 3 for front petal edges, and leave a small gap where petals overlap.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Pencil Flower Drawing: Line Weight, Graphite Shading, and Petal Layering

Original task 4 / independent drawing and calculation

Task 4

Draw a complete flower with a stem and one leaf. Use weight 3 for petal and leaf edges, weight 5 for the stem, tone 2 for lit areas, and tone 4 for shadow. Erase construction lines.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
