Fox Drawing Base: Head, Tail, and Body Construction

Original task 1 / independent drawing and calculation

Task 1

Draw a head wedge with a top line 5 cm long and a muzzle point 4 cm below. Add two ear triangles 2 cm tall. Check symmetry.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fox Drawing Base: Head, Tail, and Body Construction

Original task 2 / independent drawing and calculation

Task 2

Draw a tail centerline 7 cm long with one gentle bend. Mark the midpoint at 3 cm from the start. Add parallel outlines tapering to a rounded tip.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fox Drawing Base: Head, Tail, and Body Construction

Original task 3 / independent drawing and calculation

Task 3

Draw a chest box 6 cm wide and 5 cm tall, and a hip box 5 cm wide and 4 cm tall, overlapping by 1 cm. Connect the top corners with a back curve and the bottom corners with a belly line.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fox Drawing Base: Head, Tail, and Body Construction

Original task 4 / independent drawing and calculation

Task 4

Combine the head, tail, and body into a standing fox base. Use a head wedge 4 cm wide and 3 cm tall, a tail curve 6 cm long, and body boxes 5 cm and 4 cm wide. Check all rubric points.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
