Draw a Person Sitting in a Chair: Contact Points and Posture

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw a Person Sitting in a Chair: Contact Points and Posture

Worked example / complete source key

A figure sits upright on a chair with both feet flat, back against the backrest, and hands on thighs. Mark contacts and describe the posture guide.

Answer: Contacts: S at the seat under the pelvis, B at mid-backrest, F under each foot (two marks), and two optional hand contacts on the thighs. Posture guide: a near-vertical line from the head through the ribcage to the pelvis, tilting slightly back so the back contact is explained. Count: four required marks plus two optional hand marks.
