Realistic Rabbit Drawing: Fur Direction and Body Proportion

Original tasks 1, 2 / independent work

Task 1

A rabbit sketch has a 4 cm head, a 10 cm body, and 4 cm ears. Are the proportions correct using the 2.5-body and 1-ear guide? Show the arithmetic.

Task 2

A learner draws back fur from tail to head and side fur upward. Describe the correction using the fur-direction convention.

Realistic Rabbit Drawing: Fur Direction and Body Proportion

Original tasks 3, 4 / independent work

Task 3

A rabbit has a 5 cm head. Using the hypothetical guide, what body and ear lengths should you expect? Show the arithmetic.

Task 4

A sketch shows hind legs the same size as front legs and the belly line high off the ground. Name two fixes.
